Future in Our Hands-USA was able to support many projects in 2018 thanks to generous donors like you. A donation to purchase a knitting machine for Hope Tumaini women's' group in Kisii Kenya, sponsored by FIOH-USA, was made by a generous individual. This machine will allow the women, who are all HIV positive, to make sweaters that match the school uniforms they sew, greatly increasing their revenue.

So far this year we have received proposals for excellent projects from our African partners in Kenya and Zambia. We have a proposal to fund an Internet café business that includes computer training of young people in Zambia. Our partners in Kenya have requested funds to purchase yarn and supplies for crocheted projects.

Please support our fundraising efforts by participating in our events and giving generously to our organization. One hundred percent of your donation goes directly to our partners in Africa. For more information about our work please "like" our Facebook page and visit our newly designed website: futureinourhandsusa.org. Thank you
